

**Is it reasonable to
believe in:
Miracles?**

Thomas Jefferson (1746-1826)
3rd President of the USA

The Jefferson Bible

Argument AGAINST miracles:

- “The Laws of Nature cannot be broken.”

“The Laws of Nature cannot be broken.”

- As God made ‘the laws of nature’ he can also act without them.

“The Laws of Nature cannot be broken.”

- As God made ‘the laws of nature’ he can also act without them.
- If God could create the universe from nothing, he can easily work miracles.

**“Lord, you have made the heavens and
the earth by your great power and
outstretched arm. Nothing is too hard
for you.”**
